

# NPC Scheme Currencies

## Version History

Version	Date	Edited by	Comments
0.96	2019-05-27	NPC	First version prior to the Open Consultation
0.99	2019-06-07	NPC	First version for open consultation decided by the NPC Board.
1.0	2019-12-09	NPC	Final version after decision by the SMC.

## 1. Background

This document lists the currencies which are part of the scope of the NPC Schemes (“Scheme Currencies”).

## 2. NPC Scheme Currencies

The NPC Schemes supports the use of several currencies and promotes interoperability, integration and development for payments.

The following is the current list of Scheme Currencies which are part of the NPC Schemes.

Currency ISO 4217 (the currency code)	Description
DKK	Danish Krone
SEK	Swedish Krona

## 3. Amount

In the messages the amount consists of three parts; the first part is the Currency Code, the second is the amount expressed in krone/krona, and the third is expressed in øre/öre.

The second part must be larger than zero, and equal to or not larger than 99.999.999.999 DKK or SEK. The third part must be larger than or equal to zero DKK or SEK (øre/öre/ öre), and smaller than or equal to 99 DKK or SEK cent (øre/öre/ öre).

The combined value of 0,00 DKK or SEK (zero DKK, or SEK and zero cent (øre/öre/ öre) is not allowed.
