NPC and Request-to-Pay

Request to make a payment - used for example in e-invoicing, e-commerce & Point of Sale

- The NPC's mission is to facilitate payments in the Nordics and interoperability with the euro-zone
- EPC SRTP Scheme version 2.0 is currency agnostic meaning that payments in the "Krona" currencies can be requested according to the same common Rulebook as euro
- NPC published clarification report for EPC SRTP in end of January - [NPC Clarification Report on EPC SRTP](#)
- The NPC RTP working group analyses and agrees Nordic positions as input to the EPC SRTP work.

The EPC SRTP Scheme will be used for the Nordics as well - creating harmonisation within the Nordics and towards the euro-zone.
