## Abstract

This document sets out the rules for implementing the 2023 NPC Credit Transfer Scheme Rulebook based on version 2019 of the interbank credit transfer ISO 20022 XML message standards.

## 0.2. Change History

Issue number	Dated	Reason for revision
2020 v1.0	2019-12-18	Decided version by SMC 17 December 2019 and approved by the NPC Board 18 December 2019.
2020 v1.0.1	2020-03-27	Updates suggested by NCT & NCT Inst WG and decided by the NPC Scheme Management Committee (SMC) 26 Mars 2020. All changes listed in in chapter 3.
2020 v1.0.2	2020-08-18	Updates suggested by NCT & NCT Inst WG and decided by the NPC Scheme Management Committee (SMC) 10 June 2020. All changes listed in in chapter 3.
2020 v1.0.3	2020-08-25	Corrective update for ISO-code CashAccountType2 in a few messages related to SMC decision for version 1.0.1. All changes listed in in chapter 3.
2020 v1.1	2021-04-30	Updates suggested by NCT & NCT Inst WG and decided by the NPC Scheme Management Committee (SMC) 13 April 2021.
2023.v1.0	2022-07-11	Updates suggested by NCT & NCT Inst WG and decided by the NPC Scheme Management Committee (SMC) 8 June 2022. All changes listed in in chapter 3.
2023 v.1.1	2022-12-06	Updates suggested by NCT & NCT Inst WG and decided by the NPC Scheme Management Committee (SMC) 24 November 2022. All changes listed in chapter 3.

## 0.3. Purpose of Document

The objective of these Guidelines is to define the rules to be applied to the inter-Payment Service Provider (PSP) ISO 20022 XML message standards for the implementation of the NPC Credit Transfers as defined in the NPC Credit Transfer Scheme Rulebook.

**Note:** The term “bank” has been replaced by “PSP” in the NPC payment scheme rulebooks and associated implementation guidelines to formally reflect the changes introduced by the Payment Services Directive (PSD) to the categories of institutions that can offer payment services, and the variety in PSP categories that are eligible to adhere to the NPC payment schemes. However, please note that in the context of ISO, the term “bank” is still used.

**Note:** The term ‘Customer’ is to be understood as ‘Payment Service User’ (PSU), meaning a natural or legal person making use of a payment service in the capacity of payer, payee, or both. Such person can take up the role of Originator and/or Beneficiary under the Scheme.

# 1. Introduction

This document sets out the NPC rules for implementing the inter-PSP ISO 20022 XML message standards. The NPC Credit Transfer Scheme Rulebook defines data sets which are implemented in the relevant ISO 20022 XML message standard as follows:

NPC Credit Transfer Scheme Rulebook	ISO 20022 XML Message Standards
DS-02 <i>Inter-PSP Payment Dataset</i> DS-11 <i>Inter-PSP Fee and/or Compensation Payment Dataset</i>	FI to FI Customer Credit Transfer (pacs.008.001.08)
DS-03 <i>Reject/Status Report or Return Credit Transfer Dataset</i>	Return – Payment Return (pacs.004.001.09) Reject/Status Report – FI to FI Payment Status Report (pacs.002.001.10)
DS-05 <i>Recall of Credit Transfer Dataset</i>	FI to FI Payment Cancellation Request (camt.056.001.08)
DS-06 <i>Response to Recall of Credit Transfer Dataset</i>	Negative Response: Resolution of Investigation (camt.029.001.09) Positive Response: Payment Return (pacs.004.001.09)
DS-07 <i>Request for Recall by the Originator Dataset</i>	FI to FI Payment Cancellation Request (camt.056.001.08)
DS-08 <i>Response to the Request for Recall by the Originator Dataset</i>	Negative Response: Resolution of Investigation (camt.029.001.09) Positive Response: Payment Return (pacs.004.001.09)
<i>Request for Status Update on a Request for Recall by the Originator (step 4C under 4.4)</i>	FI To FI Payment Status Request (pacs.028.001.03)
DS-09 <i>NCT Inquiry Dataset</i>	Claim Non-Receipt (camt.027.001.07)
DS-10 <i>Response to NCT Inquiry Dataset</i>	Negative/Positive Response: Resolution of Investigation (camt.029.001.08)
<i>Request for Status Update on an NCT Inquiry (step iii under 4.5.1)</i>	FI To FI Payment Status Request (pacs.028.001.03)

The Guidelines for the inter-PSP credit transfer message standards are mandatory.

## 1.1. Coverage of the NPC Implementation Guidelines

The purpose of the NPC Implementation Guidelines, hereafter referred to as the Guidelines, is to provide guidance on the use of the Global ISO 20022 XML standards in making NPC core payments as defined in the NPC scheme rulebooks and supplemented by processing requirements.

The Guidelines are fully aligned to the NPC core requirements as defined in the Rulebook and identify message elements needed for inter-PSP processing while recognising message elements that may be available for use in Additional Optional Services (AOS), as shown below.

Global ISO 20022 XML Message Standards			
Message elements from the ISO messages corresponding to Rulebook requirements	Message elements that are mandatory in the ISO messages or needed for Inter-PSP Processing	Message elements from the ISO messages available for use by AOS within an NPC Governance framework	Message elements from ISO messages not applicable to NPC
<b>NPC Implementation Guidelines for NPC Core subset, identifying elements</b> <ul style="list-style-type: none"> <li>- to be used as defined in ISO</li> <li>- to be used with NPC usage rules (from or completing the Rulebook)</li> </ul> <b>Note: yellow fields can be used in a specific way for an AOS.</b>		To be developed and documented by AOS Communities	Not available for use in NPC payments
NPC Payments			

Figure 1

These Guidelines define the NPC Core Mandatory Subset<sup>2</sup> of the Global ISO 20022 XML standard that consists of message elements:

- required in the Rulebook as business requirements
- needed for processing by PSPs and clearing and settlement mechanisms

These message elements define the **NPC core service** and are denoted by yellow shading in the message structures given in the following chapters. Only these elements are further detailed with relevant NPC core requirements, such as the use of the message element, its components or the values that must be used. Usage rules, for example, may indicate limits on the number of repetitions, or code value restrictions, while format rules may be used to indicate the allowable combinations of components of a message element.

These Guidelines also recognise message elements and the usage rules in the ISO 20022 XML standard that may be available for use in an AOS, subject to a governance framework to be defined by the NPC. The definition and documentation of these message elements are a matter for the AOS communities involved. These message elements are denoted by white shading.

Where there are message elements that do not apply to NPC payments, these are denoted with red shading in the right-most column of the message structures. To date, few such message elements have been identified.

## 1.2. Use of these Guidelines by the instructing and instructed parties<sup>3</sup>

- NPC core payments are executed using messages only containing message elements defined as part of the NPC Core Mandatory Subset (shaded yellow in Figure 2).
- Payments that include message elements that are defined and documented by AOS communities (shaded white/yellow in Figure 2) are considered as NPC payments, but not as NPC core payments.
- It is the responsibility of the instructing PSP of the message to ensure that message elements defined for use in an AOS are only included in messages sent to AOS community members.
- The instructed PSP receiving a message containing AOS-related message elements, but which is not a member of the AOS community, may ignore the information, that is, not use it for

<sup>2</sup> The NPC Core Mandatory Subset is hereafter known as the NPC core service.

<sup>3</sup> Instructing and instructed parties include CSMs.

processing, nor forward it to the next party in the chain. The instructed PSP, however, may reject the message for this reason.

### 1.3. Notation Conventions

The Guidelines are presented in a similar format than the one used in the ISO 20022 XML standard.

#	NPC Mul	Message Element	Inter-PSP Payment NPC Core Requirements
1.00	1..1	Message root +Group Header ++Sublevel 1 +++Sublevel 2	<i>NPC Usage Rule(s)</i> (e.g. Mandatory) <i>NPC Format Rule(s)</i> <b>ISO Name</b> <b>ISO Definition</b> <b>XML Tag</b> <b>Type</b> (Yellow: Message Element that is part of the NPC Core Service)
	1..1		<b>XML Tag</b> xs:choice
1.01	1..1	Message root +Group Header ++Sublevel 1 +++Sublevel 2 ++++Sublevel 3	<i>NPC Rulebook</i> (Attribute used in Rulebook) <i>NPC Usage Rule(s)</i> (e.g. Only 'NPCA' is allowed.) <b>ISO Name</b> <b>ISO Definition</b> <b>XML Tag</b> <b>Type</b> <b>ISO Length</b> <b>NPC Length</b> (Yellow: Message Element that is part of the NPC Core Service)
			<b>NPC Code restrictions</b>
			<b>NPCA</b> <i>Nordic Payments Area Transfer, payments must be executed following the NPC Area Payment Scheme.</i>
1.02	1..1	Message root +Group Header ++Sublevel 1 +++Sublevel 2 ++++Sublevel 3	<b>ISO Name</b> <b>ISO Definition</b> <b>XML Tag</b> <b>Type</b> (White: Message Element that is not part of the Core Service but is available for use in a NPC AOS)
1.0n	0..1	Message root +Group Header ++Sublevel 1	<b>ISO Name</b> <b>ISO Definition</b> <b>XML Tag</b> <b>Type</b> (Red: Message Element that is not to be used in NPC Payments)

Figure 2

Where:

- Column 1 indicates the message element Index number specific to these Implementation Guidelines and are similar to those used in EPC's SCT Implementation Guidelines. As a result, the Index numbers differ from the ones used in the relating ISO 20022 Message Definition Report, PDF version.
- Components of message elements that are not allowed in NPC payments or where no NPC requirements are defined are not displayed in full as the ISO 20022 XML standard applies.
- Column 2 indicates the mandatory or optional status and the number of repetitions defined by the NPC Core Requirements, e.g.:
  - 0..1 element is optional and may only be present once
  - 0..n element is optional with unlimited repetition
  - 1..1 element is mandatory and must be present exactly once
  - 1..n element is mandatory with unlimited repetition

The displayed NPC multiplicity may thus differ from the one of the ISO 20022 XML standards. When an element is shaded yellow, possible remaining ISO 20022 occurrences are available for use in an AOS.

Empty elements are not allowed (i.e. a message shall not contain elements without content).

- Column 3 indicates the full path of an element where the last line contains the name of the message element as defined in the ISO 20022 XML standard. When an element contains sub-elements these are indented to the right and noted with a plus sign (+) per level.
- Column 4 specifies in italic characters the NPC Core Requirements as additional rules to those specified in the ISO 20022 XML standard, which are shown in non-italic characters.
  - When defined in the Rulebook, the attribute is indicated by the attribute name and where applicable, the number, i.e., AT-nn. Those message elements are shaded yellow.
  - When the message element relates to inter-PSP processing requirements, it is shaded yellow.
  - When the message element specified in the ISO 20022 XML standard is used for NPC payments without change (regarding the definition and any usage rules), no specific NPC Core requirements are provided and is shaded yellow.
  - When the message element is specified in the ISO 20022 XML standard as optional, but is mandatory in NPC Core requirements, this is specified as 'Mandatory' and is shaded yellow.
  - When the message element is not available for use in NPC payments, this is indicated with red shading. Note that these message elements are similarly not available for use in an AOS.
  - The NPC length is indicated for every message element (if applicable), even if it is the same length as in the ISO 20022 XML standard.

Column 4 may also indicate conditional relations between message components or elements, e.g. either component 1 or component 2 must be present, component 1 and component 2 are mutually exclusive. For XML Tag 'xs: choice (containing just one subsequent component or element due to applied restrictions on subsequent components or elements) column 4 may indicate, that the "choice" nature is lost due to applied restrictions i.e. only one element is shaded yellow.

## 1.4. Character Set

The character set issue centres on the use of the full set characters in the message elements. Two considerations are:

- PSPs must be allowed to use the character set currently in use at national level,
- PSPs cannot be required to support the full character set.

Therefore:

- The ISO 20022 XML messages allow for the full range of global language requirements (UTF-8).
- PSPs must be able to support the Latin character set commonly used in international communication and in addition to this, the Scandinavian characters and the @-sign as follows:

a b c d e f g h i j k l m n o p q r s t u v w x y z å ä ö æ ø  
 A B C D E F G H I J K L M N O P Q R S T U V W X Y Z Å Ä Ö Æ Ø  
 0 1 2 3 4 5 6 7 8 9  
 / - ? : ( ) . , ' + @  
 Space

- References, identifications and identifiers must respect the following [8]:
  - Content is restricted to the Latin character set as defined above

- Content must not start or end with a '/'
- Content must not contain '/'s

Note: When a slash is used as delimiter between the attribute number (AT-XX) or code (ABCD) and the data content, no space is allowed directly after this slash.

However, there may be bilateral or multilateral agreements to support one or more sets of characters beyond the Latin character set including the Scandinavian characters and the @-sign referred to above.

## 1.5. General Message Element Specifications

### 1.5.1. BIC

The BIC used to identify financial institutions (Agents in the ISO 20022 XML standards) may be either BIC 11 or BIC 8.

Depending on the version of the ISO 20022 message used, the BIC of a financial institution may be populated either in a <BIC> or in a <BICFI> element. (Note: the latter applies to the pacs.028.001.01, camt.027.001.06, camt.087.001.05 and camt.029.001.08 messages).

### 1.5.2. Currency

Unlike the EPC SEPA Credit Transfer Rulebook, the NPC Credit Transfer Rulebook allows more than one currency. Currencies covered by the scheme are called 'Scheme Currencies' and are listed in the reference document [9].

### 1.5.3. Alias and Proxy

In the Nordic payment market it is common that an 'Alias' or 'Proxy' is used to identify an Originator's and/or a Beneficiary's account. Therefore, ISO 20022 elements in the Debtor Account and Creditor Account sections are utilized in order to enable Originators to initiate their payment from – and to – an 'Alias' or 'Proxy' instead of an IBAN, and for Beneficiaries to still be able to collect payments through an 'Alias' or 'Proxy' instead of their IBAN. NPC usage is described in the NPC Credit Transfer Scheme Inter-PSP Implementation Guideline in the Debtor Account and Creditor Account sections. For ease of use, National Account Number will be treated as an Alias, too. Attribute AT-11 Originator Proxy/Alias and AT-25 Beneficiary Proxy/Alias should be used.

### 1.5.4. Structured creditor references, e.g. OCR-reference

In the Nordic payment market, there is a legacy in some countries to use existing national rules for creditor reference (i.e. OCR-references or Norwegian KID). These references are only used in combination with a corresponding 'Alias' or the National Account Number itself. The different national creditor rules have solutions for maintaining and performing necessary distribution of validation rules for the reference. Therefore, when Originators have entered an OCR-reference or KID it is mandatory that the Originator PSP validates the 'structured creditor reference' by checking the rule for validation connected to the respective 'Alias' or National Account Number, to ensure the correctness of the OCR-reference or KID.

### 1.5.5. Extended remittance information, up to 999 occurrences of structured references

In the Nordic payment market, it is a market practice to be able to enter remittance data with more than one occurrence of structured reference. Therefore, when using Extended Remittance Information, the Originator can refer up to 999 invoices and credit notes in structured format to each Credit Transfer payment. It is mandatory that all references have a referred document amount and that the Originator PSP (Debtor PSP) ensures that the amount of the Credit Transfer equals the sum of the amounts of the referred references. In comparison with EPC IGs, the NPC IGs do not use a specific attribute (AT-61 and AT-62 in EPC IGs) for the Extended remittance information. Instead, the same attribute, AT-05, is used for both payments with Extended Remittance Information and payments without.

## 1.6. Implementation of ISO 20022 XML rules

This document should be read in conjunction with the ISO 20022 XML message standards.

## 1.7. Change Over Date

As from the change-over date, receiving PSPs may only receive messages, including the r-messages, in the new version.

## 2. Mandatory PSP-to-PSP Messages

### 2.1. Inter-PSP Payment Dataset (DS-02)

#### 2.1.1. Use of FI to FI Customer Credit Transfer (pacs.008.001.08)

The message is used to transport the Payment instruction from the Originator PSP to the Beneficiary PSP, directly or through intermediaries. The message caters for bulk and single payment instructions.

**Note:** It is allowed to send a mix of DS-02 and DS-11 transactions, i.e. one pacs.008.001.08 message can contain 'Credit Transfer Transaction Information' blocks as per DS-02 (the present section) and DS-11 (refer to section 2.20). In such case:

- 'Payment Type Information' must be present only in 'Credit Transfer Transaction Information' in order to allow mentioning under 'Category Purpose' the codes necessary for such Fee and/or Compensation Payment transactions,
- The 'Credit Transfer Transaction Information' block(s) relating to DS-11 (inter-PSP Fee and/or Compensation Payment) transaction(s) must be formatted as per section 2.20 (not 2.1).

**Note:** the present section only describes the transactions as per DS-02, i.e. the Inter-PSP Payment Dataset.

## 2.2. Inter-PSP Return NPC Credit Transfer Dataset (DS-03)

### 2.2.1. Use of the Payment Return (pacs.004.001.09)

The message is used to transport the Credit Transfer Return instruction between PSPs, directly or through intermediaries.

The message can also be used to return instructions of NPC Credit Transfers with Extended Remittance Information (ERI) whereby only the unstructured remittance information sent by the Originator to the Beneficiary in the NPC Credit Transfer Instruction will be forwarded.

The message caters for bulk and single return instructions.

**Note:** Attribute AT-R1 'The Type of R-message' is implied by the 'Message Name', 'pacs.004.001.09', and the 'Original Message Name Identification' set to 'pacs.008.001.08'.

**Note:** Message elements under 'Original Transaction Reference' sequence are based on DS-02 attributes.

## 2.2.2. Message Element Specifications

Reasons for an inter-PSP **return** present in the Rulebook are mapped to the ISO codes as follows:

ISO Code	ISO Name	NPC Core Reason as specified in the Rulebook
AC01	IncorrectAccountNumber	Account identifier invalid (i.e. invalid IBAN or account number does not exist)
AC04	ClosedAccountNumber	Account closed
AC06	BlockedAccount	Account blocked, reason not specified
AG01	TransactionForbidden	Credit transfer forbidden on this type of account (e.g. savings account)
AG02	InvalidBankOperationCode	Operation/transaction code incorrect, invalid file format <i>Usage Rule:</i> To be used for incorrect 'operation/transaction' code or invalid file format.
AM05	Duplication	Duplicate payment
AM09	WrongAmount	Invalid validation of payment sum. <i>Usage rule:</i> To be used when sum of occurrences of 'Structured' do not correspond with Payment sum.
BE04	MissingCreditorAddress	Account address invalid
CNOR	Creditor bank is not registered	Creditor PSP is not registered under this BIC in the CSM
ERIN	ERIOptionNotSupported	The Extended Remittance Information (ERI) option is not supported
MD07	EndCustomerDeceased	Beneficiary deceased
MS02	NotSpecifiedReasonCustomerGenerated	By order of the Beneficiary
MS03	NotSpecifiedReasonAgentGenerated	Reason not specified
RC01	BankIdentifierIncorrect	PSP identifier incorrect, e.g., invalid BIC
RR01	MissingDebtorAccountOrIdentification	Regulatory Reason
RR02	MissingDebtorsNameOrAddress	Regulatory Reason
RR03	MissingCreditorsNameOrAddress	Regulatory Reason
RR04	RegulatoryReason	Regulatory Reason
RR09	InvalidStructuredCreditorReference	Proprietary code for structured creditor reference invalid or missing. <i>Usage rule:</i> To be used when structured reference is invalid or missing.

## 2.3. Inter-PSP Payment Reject or Status Report Credit Transfer Dataset (DS-03)

### 2.3.1. Use of the FI to FI Payment Status Report (pacs.002.001.10)

The FItoFIPaymentStatusReport message pacs.002 is used to provide status information, positive and/or negative e.g. reject, accept or partially accept on credit transfer instructions (pacs.008.001.08, pacs.004.001.09) earlier sent. The message caters for bulk and single accept/reject instructions.

The PaymentStatusReport message includes status on either 'Group Status', 'Transaction Status' or both levels. A reject status in pacs.002.001.10 always includes a status reason code describing the reject reason. When the code 'RJCT' (Rejected) is used in the 'Status Reason', the message transports the Credit Transfer Reject instruction between PSPs, directly or through CSM/intermediaries. The status reason codes used are fully described in ISO 20022 External Code Set, ExternalStatusReason1Code. Examples are provided in this document in section 2.3.2 Message Specification.

**Note:** Attribute AT-R1 'The type of R-message' is implied by the 'Message Name', 'pacs.002.001.10'.

**Note:** Attribute AT-R4 'The Settlement Date for the Return' is not applicable to rejects.

**Note:** Message elements under 'Original Transaction Reference' sequence are based on DS-02 attributes.

**Note:** On "Group Status" the following codes are allowed:

- ACCP (AcceptedCustomerProfile)
- ACSC (AcceptedSettlementCompleted)
- ACSP (AcceptedSettlementInProgress)
- ACTC (AcceptedTechnicalValidation)
- PART (PartiallyAccepted)
- RJCT (Rejected)

**Note:** On "Transaction Status" the following codes are allowed:

- ACSC (AcceptedSettlementCompleted)
- ACSP (AcceptedSettlementInProgress)
- RJCT (rejected)

### 2.3.2. Message Element Specifications

The list below contains examples of reason codes to be used when a pacs.002 message is used for other purposes than accepted. For a full list of ISO 20022 rejection codes, ExternalStatusReason1Code, visit the external code list page at [www.iso20022.org](http://www.iso20022.org).

ISO Code	ISO Name	NPC Core Reason as specified in the Rulebook
AC01	IncorrectAccountNumber	Account identifier incorrect (i.e. invalid IBAN)
AG02	InvalidBankOperationCode	Operation/transaction code incorrect, invalid file format <i>Usage Rule:</i> To be used for incorrect 'operation/transaction' code.
AM03	NotAllowedCurrency	Specified message amount is a non-processable currency outside of existing agreement <i>Usage Rule:</i> To be used when Beneficiary PSP is not reachable in the specified currency.
AM05	Duplication	Duplicate payment
AM11	InvalidTransactionCurrency	Transaction currency is invalid or missing <i>Usage Rule:</i> To be used when Beneficiary PSP is not reachable for cross border transactions.
ED05	SettlementFailed	Settlement of the NPC Credit Transfer has failed
ERIN	ERIOptionNotSupported	The Extended Remittance Information (ERI) option is not supported
FF01	InvalidFileFormat	Operation/transaction code incorrect, invalid file format
MS03	NotSpecifiedReasonAgentGenerated	Reason not specified
RC01	Bank Identifier Incorrect	PSP identifier incorrect (i.e. invalid BIC)
RR01	MissingDebtorAccountOrIdentification	Regulatory Reason
RR02	MissingDebtorsNameOrAddress	Regulatory Reason
RR03	MissingCreditorsNameOrAddress	Regulatory Reason
RR04	RegulatoryReason	Regulatory Reason
TM01	CutOffTime	File received after Cut-off Time
DNOR	Debtor bank is not registered	Debtor PSP is not registered under this BIC in the CSM
CNOR	Creditor bank is not registered	Creditor PSP is not registered under this BIC in the CSM

## 2.4. Inter-PSP Recall of Credit Transfer Dataset (DS-05)

### 2.4.1. Use of FI-to-FI Payment Cancellation Request V01 (camt.056.001.08)

The message is used to submit the request to cancel a pacs.008.001.08 or to cancel specified transactions from the Originator PSP to the next PSP in the chain or to the CSM, or from the CSM to the next PSP in the chain where the following apply:

- Index 4.3 'Cancellation Identification' can only be populated with AT-R7 'The specific reference of the Originator PSP initiating the Recall'.
- Index 4.19 'Originator' can only be populated with AT-R2 'The identification of the type of party initiating the R-message'.
- Index 4.20 'Reason' is to be populated with AT-48 'The Recall reason code', where:
  - Index 4.21 'Code' can only be populated with ISO code 'DUPL' (Duplicate payment), 'TECH' (Technical problem) or 'FRAD' (Fraudulent origin).
- Index 4.23 'Additional Information' is allowed only when 'FRAD' is used as Recall reason code and in such case is to be populated with AT-49 'Additional Information to AT-48 The Recall reason code'.

The message can also be used to recall a NPC Credit Transfer with Extended Remittance Information (ERI). Whereby only the unstructured remittance information sent by the Originator to the Beneficiary in the NPC Credit Transfer Instruction will be forwarded.

The message caters for single or group cancellation requests. Group cancellation requests allow recall of single or multiple transactions from single or multiple original messages.

**Note:** Attribute AT-R1 'Type of R-message' is implied by the 'Message Name', 'camt.056.001.08' and the Original Message Name Identification, 'pacs.008.001.08' and 'Reason' set to 'DUPL', 'TECH' or 'FRAD' (under "Code").

**Note:** Message elements under 'Original Transaction Reference' sequence are based on DS-02 attributes.

## 2.4.2. Message Element Specifications

Reasons for a cancellation request are mapped to the ISO codes as follows:

ISO Code	ISO Name	NPC Core Reason as specified in the Rulebook
DUPL	Duplicate payment	Duplicate Sending
TECH	Technical Problem	Technical problems resulting in erroneous NPC Credit Transfers
FRAD	Fraudulent Origin	Fraudulent originated credit transfer

## 2.5. Inter-PSP Negative Response to a Recall of Credit Transfer Dataset (DS-06)

### 2.5.1. Use of Resolution of Investigation (camt.029.001.09)

In the context of a Recall of an NPC Credit Transfer, this message is used to transmit a negative response to:

- a Recall of Credit Transfer message (FI-to-FI Payment Cancellation Request V08, camt.056.001.08);
- a Request for Status Update on a Recall of Credit Transfer message (FI-to-FI Payment Status Request, pacs.028.001.03, refer to section 'Request for Status Update on a Recall of Credit Transfer' below);

where the following apply:

- Index 3.0 'Status': only sub-element 'Confirmation' can be used, populated with 'RJCR' (Rejected Cancellation Request) only.
- Index 4.21 'Additional Information' under 'Cancellation Status Reason Information':
  - A mandatory occurrence starting with 'ATR7/' followed by the information as per attribute description 'The specific reference of the Originator PSP initiating the Recall'.
  - In addition:
    - if index 4.19 'Code' under 'Reason' is set to 'LEGL', two further occurrences are allowed to precise the reason and these must start with 'ATR6/', and/or
    - if 'Code' under 'Reason' was 'FRAD' (Fraudulent originated NCT) in the camt.056.001.01 (DS-05), then up to ten further optional occurrences are allowed, all starting with 'FRAD/' followed by all information available to file a legal claim to recover the funds in case of reason code 'Fraudulent originated NCT'.
  - As a consequence, the 'NPC Mult.' is set to [1..13].

The message caters for a single or a group negative response.

**Note:** Attribute AT-R1 'The type of R-message' is implied by the 'Message Name', 'camt.029.001.09', the Original Message Name Identification set to 'pacs.008.001.08', and 'Status' set to 'RJCR'.

**Note:** Message elements under 'Original Transaction Reference' sequence are based on DS-02 attributes.

## 2.5.2. Message Element Specifications

Reasons for the negative response to a Recall of Credit Transfer or to a Request for Status Update on a Recall of Credit Transfer are mapped to the ISO codes as follows.

Reasons for the negative response for use under 'Code':

ISO Code	ISO Name	NPC Core Reason as specified in the Rulebook
CUST	CustomerDecision	Beneficiary's Refusal
LEGL	LegalDecision	Legal reason
ARDT	The transaction has already been re- turned	Already returned transaction
AC04	Closed Account Number	Account closed
AM04	InsufficientFunds	Insufficient funds on the account
NOAS	NoAnswerFromCustomer	No response from beneficiary
NOOR	NoOriginalTransactionReceived	Initial NPC Credit Transfer Transaction never re- ceived

## 2.6. Inter-PSP Positive Response to a Recall of NPC Credit Transfer Dataset (DS-06)

### 2.6.1. Use of inter-PSP return credit transfer message (pacs.004.001.09)

The positive response to a:

- Recall of Credit Transfer message (camt.056.001.08);
- Request for Status Update on a Recall of Credit Transfer message (pacs.028.001.03, refer to section 'Request for Status Update on a Recall of Credit Transfer' below);

is to be made using an inter-PSP return credit transfer message (pacs.004.001.09), where the following apply:

- Index 1.9 'Inter-PSP Settlement Date' to be populated with AT-R8 'The settlement Date for the positive response to a Recall'.
- Index 3.13 'Returned Inter-PSP Settlement Amount' to be populated with AT-46 'The returned amount of the positive response to the Recall in the relevant Scheme currency and the relevant currency code'.
- Index 3.17 'Returned Instructed Amount' may be used.
- Index 3.22 'Amount' (under 'Charges Information') to be populated with AT-47 'The fee for the positive response to the Recall in the relevant Scheme currency and the relevant currency code', if any.
- Index 3.24 'Financial Institution Identification' (under 'Party' under 'Charges Information') to be populated with AT-23 'The BIC code of the Beneficiary PSP'.
- Index 3.31 'Originator' to be populated with AT-R2 'The Identification of the type of party initiating the "R" message'.
- Index 3.33 'Reason/Code' (under 'Return Reason Information') to be populated only with 'FOCR' (Following Cancellation Request).
- Index 3.35 'Additional Information' (under 'Return Reason Information') to be used with a mandatory occurrence starting with 'ATR7/' followed by the information as per attribute description 'The Specific Reference of the Originator PSP initiating the Recall'.

The message caters for a single or a group positive response.

**Note:** Attribute AT-R1 'The type of R-message' is implied by the 'Message Name', 'pacs.004.001.09', the 'Original Message Name Identification' set to 'pacs.008.001.08' and 'Reason' under 'Return Reason Information' set to 'FOCR'.

**Note:** Message elements under 'Original Transaction Reference' sequence are based on DS-02 attributes.

## 2.7. Request for Status Update on a Recall of NPC Credit Transfer

### 2.7.1. Use of the FI to FI Payment Status Request (pacs.028.001.03)

This message is **optional** and sent to the Beneficiary PSP in case the Originator PSP did not receive a response to a Recall, where the following applies:

- Index 3.3 'Original Instruction Identification' must be populated with the 'Cancellation Identification' (AT-R7) of the related camt.056 transaction information.

The message caters for a single or group status request.

**Note:** The use case of the message is implied by the 'Message Name', 'pacs.028.001.03', the 'Original Message Name Identification' set to 'camt.056.001.08' and the population of index 3.3 'Original Instruction Identification'.

**Note:** Message elements under 'Original Transaction Reference' are based on DS-02 attributes.

## 2.8. Request for Recall by the Originator Dataset (DS-07)

### 2.8.1. Use of FI-to-FI Payment Cancellation Request (camt.056.001.08)

The message is used to submit the request made by the Originator to cancel a pacs.008.001.08 for other reasons than those allowed in a Recall (refer to section 'Inter-PSP Recall of Credit Transfer Dataset' above). As a consequence, the following apply:

- Index 4.3 'Cancellation Identification' can only be populated with AT-51 'The specific reference of the Originator PSP for the Request for Recall by the Originator'.
- Index 4.19 'Originator' can only be populated with AT-02 'The name of the Originator'.
- Index 4.20 'Reason' is to be populated with AT-50 'Reason code for the Request for Recall by the Originator', where:
  - Index 4.21 'Code' can only be populated with ISO code 'CUST' (Requested By Customer), 'AM09' (Wrong Amount) or 'AC03' (Wrong IBAN).
- Index 4.23 'Additional Information' is to be populated with AT-52 'Additional Information to AT-50 Reason code for the Request for Recall by the Originator' which can be used in accordance with above reason codes.

The message can also be used for a Request for Recall by the Originator of a Credit Transfer with Extended Remittance Information (ERI) whereby only the unstructured remittance information sent by the Originator to the Beneficiary in the NPC Credit Transfer Instruction will be forwarded.

The message caters for single or group cancellation requests.

**Note:** The use case of the message is implied by the 'Message Name', 'camt.056.001.08', the 'Original Message Name Identification' set to 'pacs.008.001.08', Originator set to AT-02 'The name of the Originator' and 'Reason' set to 'CUST', 'AM09' or 'AC03' (under 'Code').

**Note:** Message elements under 'Original Transaction Reference' sequence are based on DS-02 attributes.

## 2.8.2. Message Element Specifications

Reasons for a Request for Recall by the Originator are mapped to the ISO codes as follows:

ISO Code	ISO Name	NPC Core Reason as specified in the Rulebook
CUST	Requested by Customer	By request of the Originator without any reason specified
AM09	Wrong Amount	Wrong Amount
AC03	Invalid Creditor Account Number	Wrong unique identifier of the Beneficiary account

## 2.9. Inter-PSP Negative Response to the Request for Recall by the Originator Dataset (DS-08)

### 2.9.1. Use of Resolution of Investigation (camt.029.001.09)

In the context of a Request for Recall by the Originator of an NPC Credit Transfer, this message is used to transmit a negative response to a:

- Request for Recall by the Originator message (FI-to-FI Payment Cancellation Request V01, camt.056.001.08);
- Request for Status Update on a Request for Recall by the Originator message (FI-to-FI Payment Status Request, pacs.028.001.03, refer to section 'Request for Status Update on a Request for Recall by the Originator' below);

where the following apply:

- Index 3.0 'Status': only sub-element 'Confirmation' can be used, populated with 'RJCR' (Rejected Cancellation Request).
- Index 4.20 'Additional Information':
  - A mandatory occurrence starting with 'AT51/' followed by the information as per attribute description 'The specific reference of the Originator PSP for the Request for Recall by the Originator'.
  - In addition, when reason code was 'AC03' (Wrong IBAN) in the camt.056.001.08, up to ten occurrences are allowed all starting with 'AT57/' followed by the information as per attribute description 'Provision of all information available to file a legal claim to recover the funds in case of reason code 'wrong unique identifier of the Beneficiary account' (optional)'.
  - As a consequence, the 'NPC Mult.' is set to [1..11].

The message caters for a single or a group negative response.

The message can also be used for a Request for Recall by the Originator of a Credit Transfer with Extended Remittance Information (ERI) whereby only the unstructured remittance information sent by the Originator to the Beneficiary in the NPC Credit Transfer Instruction will be forwarded.

**Note:** The use case of the message is implied by the 'Message Name' set to 'camt.029.001.09', the 'Original Message Name Identification' set to 'pacs.008.001.08' and 'Status' set to 'RJCR'.

**Note:** Message elements under 'Original Transaction Reference' sequence are based on DS-02 attributes.

## 2.9.2. Message Element Specifications

Reasons for the Negative Response to a Request for Recall by the Originator or a Request for Status Update on a Request for Recall by the Originator as per AT-55 'Reason code for non-acceptance of the Request for Recall by the Originator' are mapped to the ISO codes as follows.

Reasons for the negative response for use under 'Code':

ISO Code	ISO Name	NPC Core Reason as specified in the Rulebook
CUST	CustomerDecision	Beneficiary's refusal
LEGL	LegalDecision	Legal reasons
ARDT	The transaction has already been	Already returned transaction
AC04	ClosedAccountNumber	Account closed
AM04	InsufficientFunds	Insufficient funds on the account
NOAS	NoAnswerFromCustomer	No response from Beneficiary
NOOR	NoOriginalTransactionReceived	Initial NPC Credit Transfer Transaction never

## 2.10. Inter-PSP Positive Response to the Request for Recall by the Originator Dataset (DS-08)

### 2.10.1. Use of inter-PSP return credit transfer message (pacs.004.001.09)

In the context of a Request for Recall by the Originator of an NPC Credit Transfer, this message is used to transmit a positive response to a:

- Request for Recall by the Originator message (FI-to-FI Payment Cancellation Request, camt.056.001.08);
- Request for Status Update on a Request for Recall by the Originator message (FI-to-FI Payment Status Request, pacs.028.001.03, refer to section 'Request for Status Update on a Request for Recall by the Originator' below);

where the following apply:

- Index 1.9 'Inter-PSP Settlement Date' to be populated with AT-54 'The settlement date for the positive response to the Request for Recall by the Originator'.
- Index 3.13 'Returned Inter-PSP Settlement Amount' to be populated with AT-53 'The returned amount of the positive response to the Request for Recall by the Originator in the relevant Scheme currency and the relevant currency code'.
- Index 3.17 'Returned Instructed Amount' may be used.
- Index 3.22 'Amount' (under 'Charges Information') to be populated with AT-56 'Fee for the positive response to a Request for Recall by the Originator in the relevant Scheme currency and the relevant currency code', if any.
- Index 3.24 'Financial Institution Identification' (under 'Party' under 'Charges Information') to be populated with AT-23 'The BIC code of the Beneficiary PSP'.
- Index 3.31 'Originator' to be populated with AT-R2 'The Identification of the type of party initiating the "R" message'.
- Index 3.33 'Reason/Code' (under 'Return Reason Information') to be populated only with 'FOCR' (Following Cancellation Request).
- Index 3.35 'Additional Information' (under 'Return Reason Information') to be used with a mandatory occurrence starting with "AT51/" followed by the information as per attribute description 'The specific reference of the Originator PSP for the Request for Recall by the Originator'.

The message caters for a single or a group positive response.

**Note:** Attribute AT-R1 'The type of R-message' is implied by the 'Message Name', 'pacs.004.001.09', the 'Original Message Name Identification' set to 'pacs.008.001.08', 'Reason' under 'Return Reason Information' set to 'FOCR' and Originator set to AT-21 'The name of the Beneficiary'

**Note:** Message elements under 'Original Transaction Reference' sequence are based on DS-02 attributes.

## 2.11. Request for Status Update on a Request for Recall by the Originator

### 2.11.1. Use of FI To FI Payment Status Request (pacs.028.001.03)

This message is sent to the Beneficiary PSP in case the Originator PSP did not receive a response to a Request for Recall by the Originator, where the following applies:

- Index 3.3 'Original Instruction Identification' must be populated with the 'Cancellation Identification' (AT-51) of the related camt.056 transaction information.

In an NPC Credit Transfer context, the message caters for a single or group status request.

**Note:** The use case of the message is implied by the 'Message Name', 'pacs.028.001.03', the 'Original Message Name Identification' set to 'camt.056.001.08' and the population of index 3.3 'Original Instruction Identification'.

**Note:** Message elements under 'Original Transaction Reference' are based on DS-02 attributes.

## 2.12. Inter-PSP NCT Inquiry Dataset (DS-09) for Claim Non-Receipt

### 2.12.1. Use of Claim Non-Receipt (camt.027.001.07)

This message is used to transport the Claim Non-Receipt from the Originator PSP to the Beneficiary PSP, directly or through intermediaries.

The message caters for a single claim only.

**Note:** Attribute AT-80 'The NCT inquiry reason code' is implied by the 'Message Name', 'camt.027.001.07' and the Original Message Name Identification set to 'pacs.008.001.08'.

**Note:** Message elements under 'Original Transaction Reference' sequence are based on DS-02 attributes.

## 2.13. Inter-PSP Negative Response to Claim Non-Receipt (DS-10)

### 2.13.1. Use of Resolution of Investigation (camt.029.001.09)

This message is used to transmit a negative response to a:

- Claim Non-Receipt message (Claim Non-Receipt, camt.027.001.07);
- Request for Status Update on a Claim Non-Receipt message (FI-to-FI Payment Status Request, pacs.028.001.03, refer to section 'Request for Status Update on a NCT Inquiry' below);

where the following apply:

- Index 3.0 'Status': only sub-element 'Confirmation' is allowed, populated with 'RJNR' (Rejected Claim Non Receipt) only.
- Under index 6.0 'Claim Non Receipt Details', only index 6.2 'Rejected' is allowed, populated with 'NOOR' (No Original Transaction Received), 'RNPR' (Original Transaction Received but Not Processable), 'ARJT' (Already Rejected Transaction), 'ARDT' (Already Returned Transaction) or 'RR04' (Regulatory Reason) only.

In the context of a Claim Non-Receipt, the message caters for a single response only.

**Note:** The use case of the message is implied by the 'Message Name', 'camt.029.001.09', the 'Original Message Name Identification' set to 'pacs.008.001.08' and 'Status' set to 'RJNR' (Rejected Claim Non-Receipt).

**Note:** A negative response implies that a Claim Non-Receipt is rejected by the receiving party. Also, please refer to the description in the message below under the 'Claim Non-Receipt Details' block.

## 2.14. Inter-PSP Positive Response to Claim Non-Receipt (DS-10)

### 2.14.1. Use of Resolution of Investigation (camt.029.001.09)

This message is used to transmit a positive response to a:

- Claim Non-Receipt message (Claim Non-Receipt, camt.027.001.07);
- Request for Status Update on a Claim Non-Receipt message (FI-to-FI Payment Status Request, pacs.028.001.03, refer to section 'Request for Status Update on a NCT Inquiry' below);

where the following apply:

- Index 3.0 'Status': only sub-element 'Confirmation' is allowed, populated with 'ACNR' (Accepted Claim Non Receipt) only.
- Under index 6.0 'Claim Non Receipt Details', only index 6.1 'Accepted' and the relevant sub-elements are allowed.
- Under index 9.0 'Resolution Related Information', only 9.8 'Charges' and relevant sub-elements are allowed to accommodate AT-86 'Fee for handling the NCT Inquiry'.

In the context of a Claim Non-Receipt, the message caters for a single response only.

**Note:** The use case of the message is implied by the 'Message Name', 'camt.029.001.09', the 'Original Message Name Identification' set to 'pacs.008.001.08' and 'Status' set to 'ACNR'.

**Note:** Message elements under 'Original Transaction Reference' sequence are based on DS-02 attributes.

**Note:** A positive response implies that a Claim Non-Receipt is accepted by the receiving party.

**Note:** The payment of the charges is to be effectuated according to the current inter-PSP practices related to such matters. It is recommended to use the pacs.008 as described for this specific usage as per below section 'Inter-PSP Fee and/or Compensation Payment'. When paying the charges, the Originator Bank must provide 'AT-81 The specific NCT inquiry reference of the Participant initiating the NCT inquiry' and 'AT-88 Reference of the Beneficiary Bank for inter-PSP fee and/or compensation payment' in order to allow the Beneficiary Bank to allocate the payment to the right case. Moreover, the IBAN provided under 'Resolution Related Information/Charges' is the one corresponding to AT-87 'The IBAN of the account of the Beneficiary PSP' in the inter-PSP payment message.

## 2.15. Inter-PSP NCT Inquiry Dataset (DS-09) for Claim for Value Date Correction

### 2.15.1. Use of Request to Modify Payment (camt.087.001.06)

This message is used to transport the Claim for Value Date Correction from the Originator PSP to the Beneficiary PSP, directly or through intermediaries.

The message caters for a single claim.

**Note:** Attribute AT-80 'The NCT inquiry reason code' is implied by the 'Message Name', 'camt.087.001.06' and the 'Original Message Name Identification' set to 'pacs.008.001.08'.

**Note:** Message elements under 'Original Transaction Reference' sequence are based on DS-02 attributes.

## 2.16. Inter-PSP Negative Response to Claim for Value Date Correction (DS-10)

### 2.16.1. Use of Resolution of Investigation (camt.029.001.09)

This message is used to transmit a negative response to a:

- Claim for Value Date Correction message (Request To Modify Payment, camt.087.001.06);
- Request for Status Update on a Claim for Value Date Correction message (FI- to-FI Payment Status Request, pacs.028.001.03, refer to section 'Request for Status Update on a NCT Inquiry' below);

where the following applies:

- Index 3.0 'Status': only sub-element 'Confirmation' is allowed, populated with 'RJVA' (Rejected Value date Adjustment) or 'CVAA' (Correct Value date Already Applied).

In the context of a Claim for Value Date Correction, the message caters for a single response only.

**Note:** The use case of the message is implied by the 'Message Name', 'camt.029.001.09', the 'Original Message Name Identification' set to 'pacs.008.001.08' and 'Status' set to either 'RJVA' or 'CVAA'.

**Note:** Message elements under 'Original Transaction Reference' sequence are based on DS-02 attributes.

**Note:** A negative response implies that a Claim for Value Date Correction is rejected by the receiving party.

## 2.17. Inter-PSP Positive Response to Claim for Value Date Correction (DS-10) with request for interest compensation

### 2.17.1. Use of Resolution of Investigation (camt.029.001.09)

This message is used to transmit a positive response to a:

- Claim for Value Date Correction message (Request To Modify Payment, camt.087.001.06);
- Request for Status Update on a Claim for Value Date Correction message (FI- to-FI Payment Status Request, pacs.028.001.03, refer to section 'Request for Status Update on a NCT Inquiry' below);

by requesting payment of inter-PSP and/or interest compensation before applying the value date correction (as per Rulebook requirement 'the Beneficiary PSP has the right to receive interest compensation and/or a fee from the Originator PSP'), where the following apply:

- Index 3.0 'Status': only sub-element 'Confirmation' is allowed, populated with 'ACVA' (Accepted Value Date Adjustment) only.
- Under index 9.0 'Resolution Related Information', only following elements are allowed:
  - Index 9.5 'Inter-PSP Settlement Date' to accommodate AT-84 'New value date of the NCT Credit Transfer based on the new settlement date';
  - Index 9.7 'Compensation' and relevant sub-elements to accommodate AT- 85 'The interest compensation recovered by the Beneficiary PSP from the Originator PSP';
  - Index 9.22 'Compensation/Reason', only 'VADA' (Value Date Adjustment) is allowed;
  - Index 9.23 'Charges' and relevant sub-elements to accommodate AT-86 'Fee for handling the NCT Inquiry'.

In the context of a Claim for Value Date Correction, the message caters for a single response only.

**Note:** The use case of the message is implied by the 'Message Name', 'camt.029.001.09', the 'Original Message Name Identification' set to 'pacs.008.001.08' and 'Status' set to 'ACVA'.

**Note:** Message elements under 'Original Transaction Reference' sequence are based on DS-02 attributes.

**Important note:** When payment of inter-PSP fee and/or interest compensation is requested by the Beneficiary PSP, the value date adjustment will be applied by the Beneficiary PSP only after its payment.

After having taken notice of the payment of the inter-PSP fee and /or interest compensation, **the Beneficiary PSP will send a confirmation message to the Originator PSP** in order to confirm the application of the value date adjustment, please refer to the section 'Inter-PSP Confirmed Positive Response to Claim for Value Date Correction' below.

If compensation and/or charges are claimed in the present response then no compensation and/or charges can be claimed in the Confirmed Positive Response (see section 2.18.1).

The payment of the inter-PSP fee and/or interest compensation, is to be effectuated according to the current inter-PSP practices related to such matters. It is recommended\* to use the DS-11 pacs.008 (i.e. at least the DS-11 'Credit Transfer Transaction Information' block in case of a DS-02/DS-11 mix) as described for this specific usage as per below section 'Inter-PSP fee and/or compensation payment'.

When paying the inter-PSP fee and/or interest compensation and, the Originator PSP must provide 'AT-81 The specific NCT inquiry reference of the Participant initiating the NCT inquiry' and 'AT-88 Reference of the Beneficiary PSP for Inter-PSP fee and/or compensation payment' to allocate the payment to the right case.

Moreover, the IBAN provided under 'Resolution Related Information/Compensation' or 'Resolution Related Information/Charges' is the one corresponding to AT-87 'The IBAN of the account of the Beneficiary PSP' in the inter-PSP payment message.

The rulebook stipulates that "The Beneficiary PSP must provide a response-to-NCT-inquiry message about the concerned NCT inquiry within 10 Banking Business Days after it has received the NCT inquiry message" (for further information please see section 4.4.2 of the NCT Rulebook).

In case of a first positive response (camt.029) requesting payment of an inter-PSP fee and/or interest compensation and followed by a second one to confirm, please note that the above timeframe only applies to the first response, which reflects the position of the Beneficiary PSP. This in view of the fact that the aim of the NCT inquiry is to get information about the concrete fate of the original NCT transaction, i.e. has the Beneficiary PSP applied the correct value date.

The payment of the inter-PSP fee and/or interest compensation and consequently the confirmed positive response are not included in this timeframe. However, these should be done as soon as possible to reduce further friction for the Originator and the Beneficiary.

\* Clarification of the word "recommended":

NCT scheme participants may agree (e.g. on a bilateral or community/country basis) to use another practice outside the NCT scheme to settle such payments. But to ensure a minimal standard at NPC level, all scheme participants must implement the DS-11 pacs.008 message (i.e. at least the DS-11 'Credit Transfer Transaction Information' block in case of a DS-02/DS-11 mix) as described in section 2.20 of the NCT IG.

## 2.18. Inter-PSP Confirmed Positive Response to Claim for Value Date Correction (DS-10)

### 2.18.1. Use of Resolution of Investigation (camt.029.001.09)

This message is used to send a confirmed positive response to a:

- Claim for Value Date Correction message (Request To Modify Payment, camt.087.001.06);
- Request for Status Update on a Claim for Value Date Correction message (FI- to-FI Payment Status Request, pacs.028.001.03, refer to section 'Request for Status Update on a NCT Inquiry' below);

for which either

- Neither an inter-PSP fee nor interest compensation is requested by the Beneficiary PSP, or
- An inter-PSP fee and/or interest compensation has already been received by the Beneficiary PSP following an 'ACVA' (Accepted Value Date Adjustment) positive response (refer to former section 'Inter-PSP Positive Response to Claim for Value Date Correction (DS-10) with request for interest compensation'), or
- Interest compensation cannot be requested because the calculation results in a negative amount but the Beneficiary PSP asks for charges to be paid after the already applied value date correction, or
- The Beneficiary PSP asks for inter-PSP fee and/or interest compensation to be paid after the already applied value date correction,

where the following apply:

- Index 3.0 'Status': only sub-element 'Confirmation' is allowed, populated with 'MODI' (Modified As Per Request) only.
- Under index 9.0 'Resolution Related Information', only following elements are allowed:
  - Index 9.5 'Interbank Settlement Date' to accommodate AT-84 'New value date of the NCT Credit Transfer based on the new settlement date';
  - If inter-PSP fee and/or interest compensation is to be paid **after application of the value date correction**, then the following must be used:
    - Index 9.7 'Compensation' and relevant sub-elements to accommodate AT-85 'The interest compensation recovered by the Beneficiary PSP from the Originator PSP'
    - Index 9.22 'Compensation/Reason', only 'VADA' (Value Date Adjustment).
    - Index 9.25 'Charges' and relevant sub-elements to accommodate AT-86 'Fee for handling the NCT Inquiry'

In the context of a Claim for Value Date Correction, the message caters for a single response only.

**Note:** The use case of the message is implied by the 'Message Name', 'camt.029.001.09', the 'Original Message Name Identification' set to 'pacs.008.001.08' and 'Status' set to 'MODI'.

**Note:** Message elements under 'Original Transaction Reference' sequence are based on DS-02 attributes

**Important Note:**

If compensation and/or charges are claimed in the Positive Response (see section 2.17) then no compensation and/or charges can be claimed in the present response message.

The payment of the inter-PSP fee and/or interest compensation is to be effectuated according to the current inter-PSP practices related to such matters. It is recommended\* to use the DS-11 pacs.008 (i.e. at least the DS-11 'Credit Transfer Transaction Information' block in case of a DS-02/DS-11 mix) as described for this specific usage as per below section 'InterPSP Fee and/or Compensation Payment'.

When paying the interest compensation and, if applicable charges, the Originator PSP must provide AT-81 'The specific NCT inquiry reference of the Participant initiating the NCT inquiry' and AT-88 'Reference of the Beneficiary PSP for inter-PSP fee and/or compensation payment' in order to allow the Beneficiary PSP to allocate the payment to the right case.

Moreover, the IBAN provided under 'Resolution Related Information/Compensation' or 'Resolution Related Information/Charges' is the one corresponding to AT-87 'The IBAN of the account to be credited at the Beneficiary PSP' in the inter-PSP payment message.

The rulebook stipulates that "The Beneficiary PSP must provide a response-to-NCT-inquiry message about the concerned NCT inquiry within 10 Banking Business Days after it has received the NCT inquiry message" (for further information please see section 4.4.2 of the NCT Rulebook).

In case of a first positive response (camt.029) requesting payment of an inter-PSP fee and/or interest compensation and followed by a second one to confirm, please note that the above timeframe only applies to the first response, which reflects the position of the Beneficiary PSP. This in view of the fact that the aim of the NCT inquiry is to get information about the concrete fate of the original NCT transaction, i.e. has the Beneficiary PSP applied the correct value date. The payment of the inter-PSP fee and/or interest compensation and consequently the confirmed positive response are not included in this timeframe. However, these should be done as soon as possible to reduce further friction for the Originator and the Beneficiary.

\*Clarification of the word "recommended":

NCT scheme participants may agree (e.g., on a bilateral or community/country basis) to use another practice outside the NCT scheme to settle such payments. But to ensure a minimal standard at NPC level, all scheme participants must implement the DS-11 pacs.008 message (i.e. at least the DS-11 'Credit Transfer Transaction Information' block in case of a DS-02/DS-11 mix) as described in section 2.20 of the NCT IG.

## 2.19. Request for Status Update on a NCT Inquiry

### 2.19.1. Use of FI To FI Payment Status Request (pacs.028.001.03)

A pacs.028.001.03 message can be sent to the Beneficiary PSP in case the Originator PSP did not receive a response to an NCT Inquiry (i.e. Claim Non-Receipt or Claim for Value Date Correction). In this context, the following applies:

- Index 3.6 'Original Instruction Identification' must be populated with the case ID (AT-81) of the related camt.027/camt.087."

In an NCT context, the message is used for a single or group status request.

**Note:** Attribute AT-80 'The NCT inquiry reason code' is implied by the 'Message Name' set to 'pacs.028.001.03 and the 'Original Message Name Identification' set to 'camt.027.001.07' (Claim Non-Receipt) or 'camt.087.001.005' (Claim for Value Date Correction).

**Note:** Message elements under 'Original Transaction Reference' are based on DS-02 attributes.

## 2.20. Inter-PSP Fee and/or Compensation Payment Dataset (DS-11)

### 2.20.1. Use of FI to FI Customer Credit Transfer (pacs.008.001.08)

The message is used to transport the instruction related to the payment of:

- An inter-PSP fee for handling the NCT inquiry in case of a positive response to an NCT inquiry for the reasons 'Claim of Non-Receipt' and 'Claim for Value Date Correction', and/or
- Interest compensation resulting from a positive response to an NCT inquiry for the reason 'Claim for Value Date Correction'.

The message caters for the settlement of NCT inquiry fee and/or interest compensation payments for a single NCT inquiry case or multiple NCT inquiry cases.

**Note:** The use case of the message is implied by the Name, 'pacs.008.001.08', with 'Category Purpose' set to 'FCOL' (Fee Collection), 'INTE' (Interest) or 'FCIN' (Fee Collection and Interest).

**Note:** The Beneficiary PSP may wish that the NCT inquiry fees and interest compensation relating to the same inquiry are paid in two separate payments or together in one payment.

**Note:** It is allowed to send a mix of DS-02 and DS-11 transactions, i.e. one pacs.008.001.08 message can contain 'Credit Transfer Transaction Information' blocks as per DS-02 (Inter-PSP Payment Dataset, refer to section 2.1) and DS-11 (the present section) . In such case:

- 'Group Header' must be formatted in accordance with DS-02 requirements (refer to section 2.1),
- 'Payment Type Information' must be present only in 'Credit Transfer Transaction Information' in order to allow mentioning under 'Category Purpose' the codes necessary under the present section,
- 'Credit Transfer Transaction Information' block(s) relating to DS-11 must be formatted as per this section 2.20.

**Note:** The present section only describes the transactions as per DS-11, i.e. the Inter-PSP Fee and/or Compensation Payment Dataset.

### 3. List of changes in the NCT Inter-PSP Implementation Guidelines 2023 version 1.1 – Relative to the 2023 version 1.0 and the 2020 version 1.1

(Note: This list is for information – the changes included in the body of the document are the changes in effect)

#### SYMBOLS USED

1. Column one contains the identification number of the Change
2. Column two contains the reference(s) to the relevant Index Number
3. Column three contains the reference(s) to the relevant section or message element
4. Column four contains a description of the change
5. Column five contains a status code:
  - REJ: Rejected by the NCT & NCT Inst WG
  - PEN: Issue pending in the NCT & NCT Inst WG
  - ACC: Accepted by the NCT & NCT Inst WG in Guidelines
6. Column six contains the type of change:
  - TYPO: Typing and layout errors
  - CLAR: Clarification of the text
  - CHAN: Change in or further alignment with the Rulebook content

#### 3.1. List of changes 2023 v 1.1 relative to 2023 v 1.0

N°	#	Section / Message Element	Description	Status	Type
1.	2.1.1	2.45	Changed multiplicity from 0..1 to 1..1 for element Ultimate Debtor/Name	ACC	CHAN
2.	2.1.1	2.56	Element Address Type changed to white	ACC	CHAN
3.	2.1.1	2.113	Element Address Type changed to white element	ACC	CHAN
4.	2.11.1	3.31	Addition of AT-25. Multiplicity changed to 0..1 and Usage rule removed. Underlying elements 3.34.1-3.34.7 under Creditor Account taken out.	ACC	CHAN
5.	3.1	N/A	Addition of new table List of changes 2023 v 1.1 relative to 2023 v 1.0	ACC	CHAN

### 3.2. List of changes 2023 v 1.0 relative to 2020 v 1.1

N°	#	Section / Message Element	Description	Status	Type
6.	General		'The term bank has been replaced by PSP'. Changes done throughout the document.	ACC	CHAN
7.	General		Migration to the 2019 version of the ISO 20022 messaging standard. Changes made throughout the document.	ACC	CHAN
8.	General		Charge Bearer codes SHAR and SLEV have been updated with new definitions for clarification, throughout the document.	ACC	CLAR
9.	General		Smaller adjustments in usage rule for Originator, Assinger and Assingee throughout the document.	ACC	CHAN
10.	General		Throughout all messages, format rule for amount (Amount, Compensation Amount, Instructed Amount, Interbank Settlement Amount, Original Interbank Settlement Amount, Returned Instructed Amount, Returned Interbank Settlement Amount, Total Interbank Settlement Amount, Total Returned Interbank Settlement Amount) added to be consistent.	ACC	CHAN
11.	General		Significant Digits for Total Interbank Settlement Amount and Total Returned Interbank Settlement Amount changed from 11 to 15 to align with EPC.	ACC	CHAN
12.	General		In usage rule for Postal Address/Address Line, word 'Component' is replaced by 'Sub-element'.	ACC	CHAN
13.	0.3		Addition of Notes (Bank/PSP and Customer).	ACC	CLAR
14.	1.0		DS-11 Inter-PSP Fee and/or Interest compensation payment dataset added	ACC	CHAN
15.	1.0		Name of DS-03 changes due of change of scope	ACC	CHAN
16.	1.4		"Including the Scandinavian characters as defined above" taken out under bullet point 5. New note added clarifying the used of "/".	ACC	CHAN
17.	1.5.4		Additional information about Alias/Proxy for clarification.	ACC	CLAR
18.	2		Name of section changed to Mandatory PSP to-PSP Messages. Replacement of the wording "BIC or BEI" by the wording "AnyBIC" in the Usage Rule throughout the document. BIC has been replaced with BICFI throughout the document.	ACC	CHAN
19.	2.1.1		New 'Note' added related to Payment of fees or interest compensation under the NCT inquiry procedure.	ACC	CHAN
20.	2.1.1	1.5	NPC Fract Digits changed to '2'	ACC	TYPO
21.	2.1.1	1.10	Settlement account changed to yellow to align with EPC.	ACC	CHAN

N°	#	Section / Message Element	Description	Status	Type
22.	2.1.1	1.11-1.13	Code and Proprietary added under Clearing System to be complete.	ACC	CLAR
23.	2.1.1	1.20	Usage rule updated for clarification to DS-11	ACC	CHAN
